## The Science Students' Society's view on Censorship

S<sup>3</sup> attended the information meeting organised by 'Front Kontra c-Censura' on the 28<sup>th</sup> of April in the University Quadrangle. Following this meeting, the executive decided that as an organisation, it would not be suitable for S<sup>3</sup> to join the front since it does not believe that the aims of S<sup>3</sup> and 'Front Kontra c-Censura' correspond with each other. As representatives of all science students, the organisation cannot take any stand on this matter as it has to respect the views of all its members.

By not joining the Front, S<sup>3</sup> is in no way against the Front and its principles, and the members of S<sup>3</sup> are encouraged to have their own personal opinion in this matter.

S<sup>3</sup>, as part of KPS, also approved the KSU Reaction on the Draft National Cultural Policy, which, amongst other subjects, incorporates a section on censorship.
